Meet Capital Wealth Advisors

At Capital Wealth Advisors, we build personal relationships and customized plans, not just portfolios. Why? Because we understand that financial confidence results from trust, not transactions.

For well over a decade, we've helped clients develop strategies that allow them to live the retirements they've always envisioned. Our clients are like family, and we give each one the individual attention he or she desires and deserves. We're smaller by design, smaller because we're selective. Our client-to-advisor ratio is purposeful, structured so we can be attentive to each client's needs.

We're not some cookie-cutter firm, and our plans aren't cookie-cutter either. They're tailored to specific goals and dreams — designed to provide reliable income streams necessary to turn those dreams into realities. We don't work for Wall Street; we work for people just like you. We're fiduciaries who will always put your best interests first.

We believe in making smart, values-based decisions. We believe in minimizing the effects of taxes and inflation, preserving wealth and creating lasting legacies. We believe in treating people with respect. And we most certainly believe in the clients we're so blessed to serve.

Plan for your Future

LET'S MAKE A PLAN.

At Capital Wealth Advisors we have a three-step process for building a financial strategy that gives you a firm foundation for pursuing your goals.

1 Discover

Schedule a meeting to sit down with us and discover what your ideal retirement looks like.

2 Evaluate

Using our proprietary process, we'll examine your current financial situation and determine your retirement income needs.

3 Plan

Receive a custom strategy designed to help you reach your unique retirement goals.

THE RESULT?

A tailor-made financial strategy you can feel confident about. Because the main thing we want you to worry about in retirement is how to use your time.

WHAT'S NEXT?

Could You Fund a 20-Year Retirement?

FOR MOST AMERICANS, RETIREMENT IS THE LARGEST FINANCIAL UNDERTAKING OF THEIR LIVES. CONSIDER THESE FACTS:

- While the median U.S. home price is $405,000 and it costs more than $272,000 to raise a child, the average cost of retirement is between $858,000 and $1.5 million.[1,2,3]
- With men expected to live, on average, to age 84, and women to age 86, your savings will likely need to last 20 years or longer after reaching age 65.[4]
- If you or your spouse needs more medical attention than family at home can provide, moving to an assisted living facility may be necessary. But be prepared: The national median cost is $54,000 a year.[5]

SEIZE YOUR FUTURE

If you're like many of the people who come see us, you may have doubts about whether you're prepared to leave your steady paycheck behind and start living off your nest egg. Or maybe you just want reassurance that your current financial strategy is leading you where you want to go.

THAT'S WHY WE'RE HERE.

We can work with you to create a retirement strategy that fits your unique retirement needs.

Our Services

WE CAN HELP YOU ADDRESS THESE FIVE AREAS USING A VARIETY OF FINANCIAL PRODUCTS AND SERVICES.

INCOME PLANNING

Our goal is to help ensure your expenses are paid with reliability and predictability for the rest of your life.

- Retirement income strategies
- Annuities
- IRA & 401(k) rollovers

INVESTMENT PLANNING

We'll talk risk tolerance, portfolio fees (and how we may be able to reduce them), volatility control and our comprehensive money management approach.

- Investments
- Wealth management

HEALTH CARE PLANNING

We'll look at Medicare Parts A, B and D, as well as long-term care options, to address rising health care costs.

- Long-term care strategies
- Life insurance

TAX PLANNING

We'll look at the taxable nature of your current assets and potential ways to include tax-deferred or tax-free money in your retirement strategy.

- Tax-efficient strategies

LEGACY PLANNING

Together with qualified professionals, we'll create a plan that is designed so your hard-earned assets go to your beneficiaries in the most tax-efficient manner.

- Trusts
- Probate
- Charitable giving
- Estate planning

Annuities are insurance contracts designed for retirement or other long-term needs. They provide guarantees of principal and credited interest, subject to surrender charges. Annuity guarantees and protections are backed by the financial strength and claims-paying ability of the issuing insurance carrier.
